*Draft, Deliberative*

Good Morning,

In follow-up to the voicemails I left this morning for both Michael and John (who I understand is out of the office) I am attaching comments on Region 9's draft TCE action level guidance for your consideration. I am also copying Alana Lee, who I understand is very involved in vapor intrusion issues for Region 9. Overall we think the document looks very good and consistent with our current thinking on this topic, but offer these refining comments to help ensure greater consistency in how we characterize both the IRIS assessment and Superfund action levels for TCE.

We welcome the opportunity to speak with you about our comments if that would be helpful. My understanding is that you have a somewhat short timeline for finalizing this document, so we'll make ourselves available as needed if you'd like to talk.

Thanks and please don't hesitate to call me if you have any questions.

Michael
